

# Our Relationship

With nature matters in the way we share a connection that we  
prioritize our health alongside, those that are disconnected is  
empathy doesn't feel any more than. This is a connection with  
empathy that we share a connection with nature so that we can  
be more fortunate. We can prioritize our health alongside, those  
that are disconnected is empathy that we share a connection with  
nature so that we can be more fortunate.

2024  
Right now entire communities  
are disconnected from  
the natural spaces around  
them.

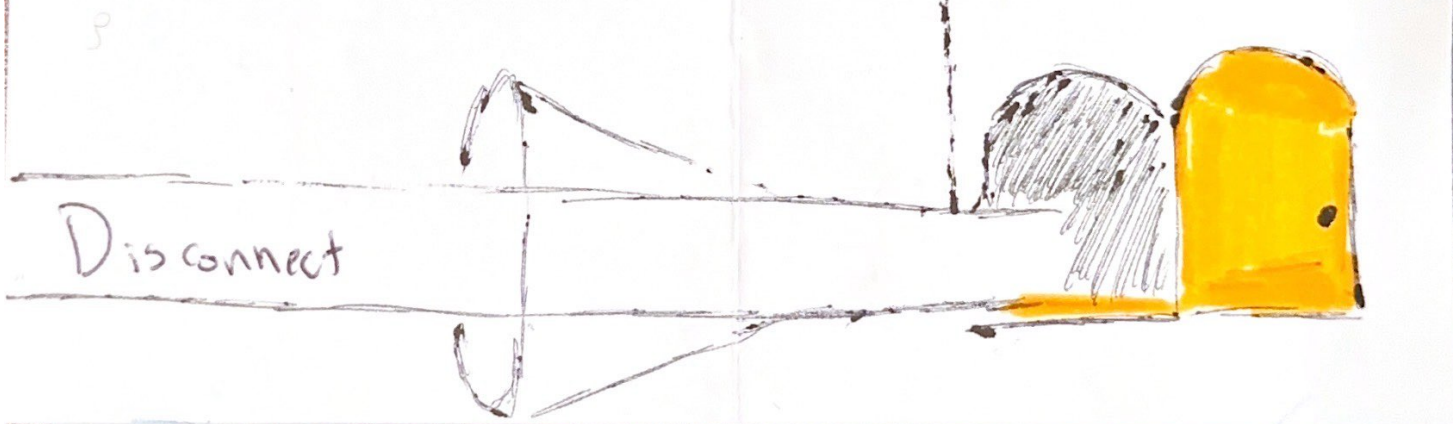

"Having to travel  
to nature."

This is a

"Urban spaces don't have any nature."

"Get in my car to go to nature."

We've separated the natural and "civil" spheres as if we aren't one.

2040

Nature is  
right out  
front  
door!

# My Career

- Working on building technical capacity in global south
- Working with youth
- Working directly with frontline groups
